Arp-EG Classic Latest

Simulate a physical arpeggiator with your VST instrument. It allows you to play your arpeggio on all your instruments, as long as they have MIDI output. Six ARP modes, two octave range, amazing ability to sync or to drift the arp window with your step. Arp-EG classic VST effect: Six playback modes, two octave range, speed up and slow down of your arp sync with your DAW step, external MIDI trigger and hardware synth. Arp-EG classic Arp clip: Record any note you play on your MIDI keyboard or VST instrument, or any midi note on your DAW. Then you'll see the arp pattern you recorded to be triggered each time you play the same note. There are also different types of arp-sequences: Arp-split with 7 clips for each notes. Arp-sequences: It's simply arp patterns with only one note and then repeat the sequence. It's useful for complex arp sequences. Arp-step with 4 copies for each notes. Arp-drift with 4 copies for each notes. These types of arp-sequences are based on the ARP-* for loop methods. Please visit for more info and free demo Arp-EG classic is a MIDI arpeggiator, play arpeggio on all your instruments. All the VST instrument you like and even your hardware synth (using your DAW MIDI out) can now play arp sequence with Arp-EG. You can use the six playback mode and the four octave range for creating complex arpeggio, as well as speed up or slow down your arp sync on your DAW beat. Arp-EG classic Description: Simulate a physical arpeggiator with your VST instrument. It allows you to play your arpeggio on all your instruments, as long as they have MIDI output.
