**developing the ELDEN RING mobile game. I would like to introduce the gameplay of ELDEN RING, the fantasy action RPG developed by MobileGames studio. I hope you all have fun with ELDEN RING! ☐☐Gameplay. As the game progresses, the world of ELDEN RING becomes more complex. You will notice the world and its surrounding area only when you interact with a non-player character. Once you make an interaction with an NPC, a new area which contains unique content will be displayed. For example, in the field, if you make a contact with a companion NPC, a point of interest (e.g. a vendor NPC, an NPC who sells building materials or an NPC who sells food) will be displayed to suggest a quest. You will find a variety of game elements such as missions, events and side quests. You can combine the elements of quests and events and make your own item, weapon, or armor. You can also improve your character's abilities using an in-game method known as Talismans. You can improve your Talismans by collecting diamonds, which you can use to purchase new Talismans. ☐☐Online Play You can form a party with others playing ELDEN RING together. In addition to obtaining rewards by exploring the world of ELDEN RING, you can exchange items, party members, and experience points between parties. You can also share your life experiences in the chat window with your friends. Please enjoy ELDEN RING together. Just a small teaser. Hello, everyone!
