

GradeCalc Crack For PC

GradeCalc Crack + Download (Latest)

GradeCalc For Windows 10 Crack is an easy-to-use application that gives you the possibility to calculate your school score by entering assignment points, extra credit and any earned extra credit. It's a simple app that's free to use and doesn't feature complex features. Calculate your school grade using a Metro app Because it's made as a Modern UI program for machines compatible with Windows 8, 8.1 and 10, GradeCalc can be downloaded and installed from the Store with little effort. It's practical because it doesn't need Internet access to work, so you can use it to determine your school score even when you can't go online to look up this info. The interface of the grade calculator has a dark theme and large buttons, showing three empty fields for adding total assignment points, points earned and extra credit earned (leave 0 if none). Create assignments with total and earned points, and extra credit Afterward, you can click "Enter Assignment" to add it to the list and then create new assignments. You can keep track of their number as well as find out your grade, which represents a percentage level based on all assignments. There's also a button available for resetting everything to start adding assignments from scratch. Sadly, the developer hasn't integrated any options for copying all data, sending it to the printer, or exporting it to file as a text document. Take a screenshot to save school grade info Nevertheless, if you want to store this information, you can take a screenshot of the main panel and send the image to an external Modern UI app that supports photos and has a saving function. All in all, GradeCalc delivers a simple and straightforward way of determining your school grade by taking into account your assignments and points. It can be easily used and it's free. GradeCalc Key Features: + Easy to calculate your school score: just enter assignment points, earned extra credit and total assignment points. + Enter extra credit: just enter earned extra credit, without needing to enter the extra credit name. + Enter each assignment point or earned extra credit with a single click. + Create new assignments at any time, with individual points or total score. + Calculate and display school grade and percentage, or letter grade. + Import custom assignments from a text document. + Take a screenshot of the screen. + Save the main screen as a JPG or PNG file. + Receive notifications when you reach a new percent value. + Send

GradeCalc Crack Activation Code With Keygen [Latest-2022]

----- If you have a keyboard, check out the FullMac App, which is a custom application for all your Mac Keyboard and Mouse functions, including Macro key presses, combinations, and more.
