"If you're looking for a simple tool for novice and expert users that enables you to add short messages or effects to highlight certain features in a video, then iSkysoft Video Editor might come in handy." Free trial version. Comparison of various syringes for intermittent intravenous injections of insulin in a glucose clamp. The efficiency of 11 commercial syringes in transferring 2 units of insulin (Dipeptidyl-Dipeptidase-4 type) from a syringe to a Braun injector was studied in the calf. The syringes studied were Volatis, Pentapharm, Labdok, Leksell, Braun, Norgren, Holley, Mycomed-Deutschland, Insulan and Arzt-Mycomed-Deutschland. In addition, a new model of the Insulan syringe was investigated. The insulin syringes were filled with 4 ml of 0.1 N HCl and 5 min later, the syringes were disconnected from the injector. From the rate of insulin transferred to the injector, the following correlation coefficients were calculated:  $r = 0.97$  for insulin syringes from Leksell and Volatis,  $r = 0.96$  for insulin syringes from Mycomed and the Braun insulin syringe,  $r = 0.91$  for
