2000/2005/2008.Q: How to check time since last successful connection? I want to check the time since the last successful connection (any connection method). How to do that? Basically I want to know how

many seconds have passed since the last successful connection. A: You can use the `WaitForSingleObject()` function to wait for a timeout event. The Windows-API function provides a convenience method, but you can use the `WaitForSingleObject()` method in other ways too:

`WaitForSingleObject(Handle, Milliseconds, [False])`
`WaitForSingleObject(Handle, Timeout, [false])` See:

WaitForSingleObject -
MSDN. Use it like this: const
DWORD
milli_seconds_to_wait =
1000; // waiting for the time-
out event HANDLE hTimer =
CreateTimerQueue();
WaitForSingleObject(hTimer,
milli_seconds_to_wait); //
check if the time-out
occurred and handle it if
(WaitForSingleObject(hTimer
, 0) == WAIT_OBJECT_0) { //
the time-out occurred,
handle it } An ongoing

Wikipedia calls Western
Civilization a collection of
"civilizations" that have
developed over the millennia,
in many areas and from
diverse cultural and
geographic influences. The
first civilizations developed
in Eurasia. As the Roman
Empire and its successors
spread across Europe, they
adopted many of the

customs, technologies, and religions of the people they conquered. History of Western civilization Western civilization is the collective name used to describe the modern world and its advancement. It can be considered the geographic western hemisphere, especially Europe, North America and the Australasian continent. Ancient civilisations that were heavily influenced by the West

include: Modern warfare
Warfare, from its origins in antiquity through the 20th century, has been considered by many a defining feature of Western civilization. History of warfare The term "warfare" is used to describe the organized armed conflict between individuals, or groups of individuals, typically for territorial conquest or for some other political, religious
