What's New in the?

QuoteWerks Corporate Edition is a turnkey, powerful, solution for managing quotations, sales and product information, and customer data. It gives you the power to do more with less. QuoteWerks Corporate Edition Features: QuoteWerks Corporate Edition integrates with Contact Managers, MS CRM, Outlook, salesforce.com and many other systems to capture Customer/Prospect information from every aspect of your business. QuoteWerks Corporate Edition is the easiest, most efficient way to obtain, record and use the customer's and prospect's contact information. QuoteWerks Corporate Edition Includes: Text Product Information Description: Designed to work in tandem with your Product Catalog software, the Description field in the QuoteWerks Administration Console provides your sales and marketing staff with the ability to create an accurate, editable description. A Description field is useful for explaining product specifications or features. If you don't have the capability to create a product description yourself, you may want to consider including this field in your QuoteWerks Application to enable your salespeople to create a product description without any additional software. QuoteWerks Commercial Description Reportable Product Information: Most manufacturers offer their products with a Reportable Product Information field that tracks and keeps a detailed list of the products that your company has sold. It provides the ability to look up individual products when information is needed. If you don't have this functionality in your current catalog software, QuoteWerks may be able to integrate with your current product catalog software to provide this feature. QuoteWerks Professional Description QuoteWerks Product Codes: The Product Code field tracks the specific code of a product. If you do not have the ability to enter or edit a product code in your current catalog software, QuoteWerks can integrate with your current product catalog software to provide this capability. QuoteWerks Commercial Product Codes QuoteWerks Product Code Features: The Product Code field tracks the specific code of a product. If you do not have the ability to enter or edit a product code in your current catalog software, QuoteWerks can integrate with your current product catalog software to provide this capability. Quotes: QuoteWerks provides customers with a powerful quote tool that allows you to make quotes, record information, and submit them to users. In addition, QuoteWerks tracks the terms of your quotes, manages your quote history, and automates the quote approval and tracking process. QuoteWerks Commercial Features: Ability to make a quote Record information for a quote Submit a quote to a user Receive a quote Track the terms of your quotes Manage the history of your quotes Automate the quote approval and tracking process Easily
