Free caneco bt 5.4 telecharger gratuit download software at UpdateStar -.If the Trump administration thinks that it is an honor to go to the United Nations for its UN ambassador to issue a threat, they were sorely mistaken. As the UN Ambassador Nikki Haley has been doing for the past six months, she took the baton yesterday from President Trump and announced Trump's intent to withdraw. According to Haley: "President Trump has made it clear that the era of unconditional foreign aid is over, and we expect our allies to meet their financial obligations to the United States, just as we expect our allies to meet their obligations to us. The president has also made clear that our allies must pay their fair share for the cost of protecting them. We expect those who have benefited the most from the U.S. military and our foreign policy should be willing to pay their fair share of these costs." In this statement, Haley announced that the United States is going to demand "fairness," and, by the way, that means that America will not be doing any more of the protecting of our allies from Russia, Iran, and North Korea. First, we should point out that the UN has repeatedly asked the United States to do more of the heavy lifting around the world, and to fund what is a mandate of the UN that it be a rule-maker. In other words, if you are a member of the UN, and if the UN has a problem, the UN asks the United States to come in and solve it. The United States has gone through all kinds of hurdles to join the UN, and joined in 1948 and signed in 1945. That said, the UN is a dysfunctional organization that needs to go back to its core and to its foundation, which was to give the UN something to be a working framework for discussion. Instead, the UN has become a political circus.
